*Met on this
with Thompson
rep (Hose) and
RCS people from
Pier 91/1 + Read
Estate to discuss
action on this*

Gentlemen:

It has come to my attention that for some time it has been a practice to dump non-salvageable waste oil and water direct to the ground inside the tank farm firewall at Pier 91.

This procedure has caused the ground to become saturated to the point where seepage is being encountered in utility manholes nearby. We view this situation as extremely dangerous, and therefore it is requested that this practice be stopped immediately.

Your cooperation in this matter will be greatly appreciated.

Yours very truly,

M. O. Benett
Manager, Marine Terminals
